

# Improve Your Customer Onboarding with a Simple and Secure Solution

Allow your customers to start transferring money faster with a streamlined and more secure mobile onboarding experience.

Offline data capturing  
ensures customer security

Location & connection  
independent

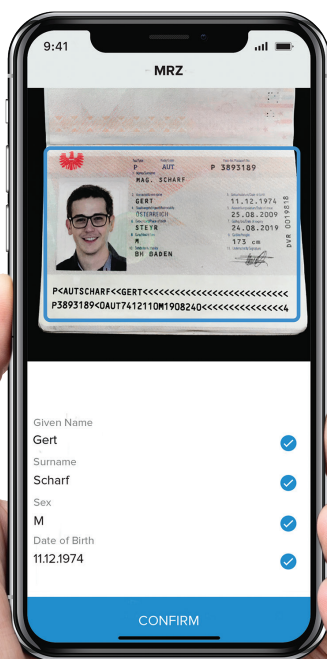

No data entry errors

Data capture incl.  
verification image

20 times faster  
than manual data entry

## Let new customers register in seconds on their own mobile devices

### On-device processing ensures full data security

Anyline scanning captures data completely offline, ensuring your customers information is kept secure in your system.

### Let new customers register anywhere

By scanning their ID or passport, new customers can register themselves for your services at their convenience.

### Error-free data capture

Mobile scanning removes the errors of manual data entry during customer onboarding, giving your customers a seamless onboarding experience.

Using mobile scanning is not only more accurate than manual data entry, but also 20 times faster. To ensure your success, Anyline provides the scanning solutions to fit your needs, and expert support throughout your process – from beginning through to launch and beyond.
